New for 2016...

SIF16 will build on the success of the last 6 years to create the most interactive and informative Forum yet...

- Participate in panel discussions with leading industry figures, addressing the entire high level audience
- Extended roundtable discussion sessions allowing more time to address key industry issues
- Interactive Q&A with panellists, ensuring that your questions are addressed directly
- Co-located workshops led by industry experts to drill down into specific topics
- On site meetings to aid your networking experience and access to decision makers
- Greater cultural focus, integrating your experience with creative and inspirational responses to sustainability issues

Agenda topics:

- Mainstreaming sustainable urban development
- Networked carbon markets
- Circular economy models
- Sustainable landscape management
- Developing a low carbon energy mix
- Youth for sustainable innovation
- Urban mobility and air quality management
- Financing INDC implementation

“I thought the event was excellent, bringing together some very diverse perspectives and with a welcome visibility for different age groups, especially the young professionals”.

Joan McNaughton, Chair
