

#YOUTH4CLIMATE

**UN PARIS CLIMATE AGREEMENT
SIGNING CEREMONY**

OVERVIEW

Last December, 195 countries came together in Paris and reached an unprecedented agreement to limit global warming to well below 2 degrees Celsius. In the wake of the agreement, more than 150 countries confirmed that they will sign the Paris Agreement, on April 22. A record number!

Today's generation is the first generation to feel the impacts of climate change and the last that can do something about it. The #Youth4Climate social media campaign is an open discussion for all to join in the youth call for climate action and to show their leadership in addressing the climate challenges and opportunities. Join us!
